1. The Coast Guard is committed to supporting the Coast Guard Auxiliary by providing training materials, courses, and tools to impart the skills and knowledge needed to achieve mission excellence. As part of this commitment, the Coast Guard has launched an enterprise-wide Auxiliary Learning Management System (AUXLMS) to automate the delivery and, in turn, improve the efficiency of training processes for Auxiliarists.

2. The AUXLMS provides the flexibility for Auxiliarists to access training material anywhere and anytime on a personal computer. With AUXLMS, you can fulfill your Auxiliary MT requirements from the comfort of your home. Among other courses, **ICS-210 is now available online through the AUXLMS (use course code 502325). With this availability, as of 18 January 2013, ICS 210 will no longer be offered as a classroom course in 1SR.**

3. Successful course completion is automatically recorded in AUXDATA without manual intervention of an Information Services (IS) staff officer. Data uploads from the AUXLMS to AUXDATA occur on a weekly basis each Monday.
