PURPOSE:

The UNIFORM PROCUREMENT GUIDE is designed to give Auxiliarists the latest in-depth OFFICIAL policy and information covering uniform garments, sources of supply, ordering procedures, helpful size charts, prices, and whom to contact for assistance when purchasing garments. The GUIDE contains complete information on what uniforms to order and how to wear the Operational Dress Uniform correctly.

GENERAL:

All Auxiliarists have a responsibility to wear the uniform correctly. The UPG will help you find and purchase uniform items and provide you with valuable tips on how to wear the uniform correctly. Please take a few minutes to check out the latest edition of the UPG, (it is posted on the Human Resources Department web page at <http://hdept.cgaux.org/>). The UPG includes information from both military and commercial sources. Each source of supply is listed with procedures for ordering and returns. Return policies vary with suppliers. Be certain you understand what the supplier's return policies are before ordering.

It is the responsibility of members to purchase and maintain a uniform appropriate to the activities in which they will participate. All uniform purchases are tax deductible. Auxiliarists should have at least two uniforms, one for Dress (Tropical Blue) and one for Work (Operational Dress Uniform). Without a uniform, members are limited in what they can do. Uniforms are required for Public Education Classes, Patrols/Operations, and Public Affairs Booths. They are needed when standing watches or providing other assistance at Coast Guard units. Finally, they serve to show that you are a member of the Coast Guard Auxiliary. Tables 1A and 1B for Men and 2A and 2B for Women specify each authorized uniform and when to wear it. They also tell what uniform combinations to wear for assigned and routine occasions. In order to make these tables more user-friendly, the format lists the items from head to toe (starting with the hat). Use this sheet as a helpful guide when ordering any uniform items. Pictures of all authorized uniforms are in the new AUXILIARY MANUAL, COMDTINST M16790.1 (series), including the Operational Dress Uniform.

MEN'S AND WOMEN'S TROPICAL BLUE UNIFORM:

Members should consider purchasing the Tropical Blue uniform with the dress serge trousers and/or skirt. This basic uniform can be worn for most Auxiliary activities. The Optional Tunic Over Blouse with epaulets, pockets, and button placket in exactly the same location as the women's USAF short sleeve Blue shirt is now authorized for women who would be more comfortable in a more loosely-fitting shirt. The Tunic shirt worn with the dress serge trousers and/or skirt, Tropical Blue uniform (with short sleeve shirt with epaulets), and the Service Dress Blue are the dress uniforms year round. While it is moderately expensive to buy and maintain a complete set of dress, work, and formal uniforms, it need not be costly to own one uniform initially. See table 1B for Men and 2B for Women.

OPERATIONAL DRESS UNIFORM (ODU):

The Uniform Distribution Center is fully stocked with all items for composing a uniform. Go to: <http://www.uscg.mil/hq/g-w/g-wp/udc>

UPG Policy

POLICY OF REVISION:

Revisions and clarifications will be posted in the UPG copy on the Human Resources Department and Uniform Division web site at: <http://hdept.cgaux.org/>, throughout the year, as necessary. This policy has been implemented in order to eliminate any errors, mistakes, and general forms of misinformation, etc., and instead produce a centralized, final resource for timely, accurate information. Any questions regarding uniform and this UPG should be directed to Jackson Whitaker, Jr, Division Chief of Uniform (DVC-HX) at jwhita8464@aol.com.

ACCESSIBILITY:

The most recent Uniform Procurement Guide will be located on the Uniform Division Web page and on the Human Resources Department web site at <http://hdept.cgaux.org/>. This will be the only Internet site where revisions to the UPG will be available. If a copy of the continually revised guide is extracted and used as an information tool in any form or fashion, it is the responsibility of the party doing so to maintain its accuracy. This can be done by constantly checking the UPG on the Human Resources Department Uniform Division web site for any updates.

SECURING A COPY:

How do I obtain a CD Copy?

Contact your FSO-MA if you would like CD copy of the latest Uniform Procurement guide. Hard copies will be available on a very limited basis. Please do not stockpile (they will only be made on an as-ordered basis) as the UPG will be DOWNLOADABLE from the AUX-H department web site. This will save a lot of TREES, and again, make the LATEST INFORMATION READILY ACCESSABLE to the membership. As the UPG is under constant revision, as needed

- ▶ A hard copy or CD of the UPG is not your final reference for Uniform information unless it is identical to the copy posted in electronic form on the AUX-H Department web page. Look for the latest revision DATE at bottom of page.

How do I obtain the Most Recent Copy?

The most recently updated copy of the UPG will be downloadable from the <http://hdept.cgaux.org/> Human Resources Department web site and the Uniforms Division page in PDF format.

STAYING ATTENTIVE:

Members are expected to stay abreast of revisions as they occur throughout the year. These changes will be on the Human Resources Department's Website, and the revised UPG will be available in electronic form on the Uniform Division web site.

Please be advised that members who do not have immediate access to a computer (and they are to be considered) should be aware of changes or revisions made to the UPG as posted on the H-Dept. web site. It is to the member's benefit to acquire any new revision to the guide to update their personal copies, as they become available. I would like to encourage any individual member in such a situation to exhaust your resources, such as the computers at your local library for one, or perhaps collaborate with a fellow member who has a computer. It is very important to stay on top of the web site. Inquire of the Uniform Division for alternative suggestions.

TO PONDER:

I would like at this time to say that we are a TEAM, we must all pull together to strengthen this TEAM. This is all about showing how devoted we are to the Coast Guard Family, of which we are a very important part. The uniform we wear is that of a United States Coast Guard Team that has a history of courage and bravery second to none. Let's take our "How Do We Look" Campaign to heart and wear our Auxiliary Uniform smartly and proudly!

**PROPER POSITIONING OF COLLAR INSIGNIA
ON COAST GUARD AUXILIARY UNIFORMS:**

The illustrations below indicate how members should wear collar insignias on the various shirts for which they are authorized. In certain cases, the insignia of current or highest past office is replaced with the Member Device.

- a. Light Blue Shirt and Winter Dress Blue Long-Sleeve Shirt: On a closed-collar shirt worn with a tie, the collar insignia is placed on collar one inch from the top measured from top of collar device. Device should be set one inch back and parallel to the inner edge of collar.
- b. Working Blue Short Sleeve Shirt: On an open collar shirt, the insignia is centered on "line" bisecting the angle of the collar point. One and one-half inch from collar tip to "A" on insignia, or center of "Member Device".

The Auxiliary does not have RANK; we have Insignia of Office or a Member Device

GARRISON CAP

Members may wear the Garrison cap only with Flight suit, Service Dress Blue, Tropical Blue, Winter Dress Blue, or Undress uniforms. The small garrison cap insignia (on wearer's left forehead) and small metal office insignia or member device on wearer's right forehead are worn on the cap as shown in the diagram with both men's and women's uniforms. The Garrison Cap is UNISEX style.

From front of cap to device center is 2.0"

**PROPER PLACEMENT OF RIBBONS,
NAME TAG, & QUALIFICATION DEVICE**

The illustration indicates the proper placement of ribbons, name tag, breast, and qualification devices. As shown, the lowest row of ribbons is ¼ inch above the top of the pocket. The first breast device, Coxswain device in this case, is placed ¼ inch above the top row of ribbons.

The second breast device, if worn, is placed ¼ inch below the top of the pocket. Members wear ribbons, breast devices, and qualification devices on the left side of the uniform. Other branches of the military qualification devices can be worn on left side. Total devices worn on left side is two, this includes Auxiliary and former service qualifications.

On the right side of the uniform, members wear the name tag ¼ inch above the pocket. An AUXOP device, if authorized, is worn ¼ inch above the nametag. Members wear the past officers' device, if required, ¼ inch below the top of the pocket (between buttonhole and stitching). Coast Guard Recruiting Badge, National Staff Identification Badge, are to be worn centered (horizontally and vertically), mid-pocket. The right side of uniform is for Auxiliary ONLY.

Although the illustration shows a Tropical Blue uniform shirt, members wear these items in the same relative position on the Service Dress Blue coat, the Winter Dress Blue uniform shirt, and the Tropical Blue shirt, (Air Force Blue short-sleeve shirt with epaulets).

On the Undress uniform Dress shirts, members do not wear ribbons. The first Auxiliary qualification breast device is worn ¼ inch above the top of the LEFT pocket. The second is worn ¼ inch below the top of the LEFT pocket, between the bottom row of stitching at pocket top and buttonhole top stitching. The nametag is placed ¼ inch above RIGHT pocket.

The Operational Dress Uniform Un Tucked and Tucked version are placed as follows: the OPEN COLLAR INSIGNIA and MEMBER DEVICE placements are the same for the WORK shirt. ALL INSIGNIA AND DEVICES ARE TO BE SEW-ON TYPE.

NAME TAPES

The LAST NAME tape is sewn on ABOVE the wearer's RIGHT Shirt Pocket Flap, the USCG AUXILIARY tape is sewn on ABOVE the wearer's LEFT Shirt Pocket Flap. The LENGTH of the TAPE MUST be from one end of pocket top to the other end of pocket top EXACTLY. This is also the LENGTH of any Qualification Device Tapes.

BELT AND BUCKLE:

Wear belts with all trousers and skirts that have belt loops.

Item	Description	Related Information
BLACK BELT	The black belt is made of black webbing with an attached silver Clip end (metal tip)	<u>Wear With:</u> -Dress Blue Trousers -Undress Trousers -Working Blue Trousers
SILVER BELT BUCKLE	The standard belt buckle is silver. It is worn with a Black Belt.	<u>Wear With:</u> -Dress Blue Trousers -Undress Trousers -Working Blue Trousers

MANNER OF WEAR FOR STANDARD SILVER BUCKLE:

MEN:

Wear the buckle so that the belt clip end (metal tip) touches the wearer’s LEFT side of the buckle. Align the RIGHT side of the buckle with the opening of the shirt and opening of the fly, forming a straight line (in the military referred to as a “gig line”).

WOMEN:

Wear the buckle so that the belt clip end (metal tip) touches the wearer’s RIGHT side of the buckle. Align the LEFT side of the buckle with the opening of the shirt forming a straight line. If men’s trousers are worn, align the LEFT side of the buckle with the opening of the shirt and opening of the fly, forming a straight line (gig line).

The belt should be cut such that there is not a long “tail” left over. In fact, the silver end of the web belt should just slide through your buckle enough so that it appears an uninterrupted chunk of silver at the buckle. No webbing should be exposed between the belt clip and the buckle

COVERS (HATS):

Hats, or covers, are to be worn squarely on the head, not tilted back or to the side. Hair or bangs should not be visible below the brim or hat line of the cover. Long hair should be up and away from the collar and contained under the hat, not sticking out the back. Covers should always be worn outdoors, and removed indoors. Some Religious Service protocol require cover be worn indoors.

All apparel obtained from the Uniform Distribution Center (UDC), and government uniform items sold through the Coast Guard Exchange System stores shall be considered regulation uniform items.

To gain entry, Auxiliarists must have their Auxiliary ID Card (USCG-2650A) with them, also to be shown when making a purchase. To assist you in locating an Exchange Supply Store, use the web site above for a directory of all Coast Guard Exchange System Stores, contact the Exchange nearest you for directions. When visiting or ordering from an Exchange for the first time, it is suggested you check on the following:

HOW TO ORDER:

Phone orders are accepted from the companies listed above. All accept the credit cards listed. Member collar devices are available as well as officer devices. One word of caution, however; anyone sewing on officer collar devices may have to change them or wear an alternate shirt if they crew on a Coast Guard vessel or with Coast Guard Aviation. In that case, all that should be worn are member devices so as not to confuse the active duty Coast Guard personnel with a two-star (Auxiliary) taking orders from a third class (active duty Coast Guard). It is suggested that, when ordering name tapes, you provide the vendor with the width of your shirt pocket to ensure that the name tapes sent will extend to the edges of the pocket (but not beyond) when it is sewn on. You should have enough material to turn the edges under before sewing the name tapes on your uniform. If the edges are not sewn under, they will fray when washed. When ordering your collar devices, be sure to indicate whether you need blue "A" (elected) or red "A" (appointed). For the safety of members participating in operations missions, be sure to wear the sew-on cloth tapes when wearing a personal flotation device (PFD), as the regular name tags and insignia can easily become snagged on the mesh liner and cause injury to the wearer.

CARE AND MAINTENANCE OF AUXILIARY

UNIFORMS

Uniforms are a big investment, and with conscientious care, they can truly last for years and can be a pleasure to wear. The best way to make uniforms last and keep them looking sharp is to give them proper care. Keep them cleaned, and on hangers when possible. No matter how well a new uniform fits, it will soon lose its shape—especially the coat—if the pockets bulge with odds and ends. Trousers should never be tossed over a chair but hung to keep the press in. Use hangers specially made for pants. And hang them with empty pockets and no belt. As a rule of thumb, clean your tailored trousers every second or third wearing. More casual pants (cotton) could use a more frequent cleaning. Brush them in between cleanings. We recommend turning cotton trousers inside out before washing and drying to cut down on undue abrasion. Damp clothing should be carefully hung and smoothed out to avoid wrinkles as it dries.

SILVER LACE, CAP DEVICES, AND BUTTONS

Silver lace, or braid, will tarnish and is best cleaned by an experienced tailor. However, most uniform shops sell a commercial cleaner that will remove light tarnish. Embroidered cap devices and other insignia may be kept bright by light brushing with a small brush and ammonia diluted in water. This should be done at the first signs of tarnish. After heavy discoloration, the device cannot be restored to its original condition. Metal cap devices can be kept bright by using soap and water or polishing the silver with any silver polish.

SINGE MARKS

A singe mark can be removed by rubbing vigorously with the flat side of a silver coin. Some singe marks can be removed by sponging with a 3 percent solution of hydrogen peroxide and drying in direct sunlight. Never use this treatment on wool or dyed fabrics. Cuts, burns, or moth holes can be rewoven by a skillful tailor, who takes thread from another part of the garment; the shiny spots on serge can be removed by first sponging with a 1:20 solution of ammonia, then covering with a damp cloth, pressing with a hot iron, and rubbing gently with “00” sandpaper or emery cloth, but it’s best to let an experienced tailor do this.

MEDALS

The surfaces of decorations are protected with an oxidized satin finish and a lacquer coating. They will not tarnish, and need no polishing; polishing may remove the finish. Medals may be cleaned with soap and water. The ribbons may be dry-cleaned, or replaced.

MOTHS

The best way to discourage moths is to brush clothing frequently and expose it to sunshine and fresh air when possible. If clothing is to be stored for any time, pack items in airtight plastic bags with camphor balls, naphthalene, or cedar wood.

MILDEW

New mildew can be washed out with cold water. Old stains in white cotton can be removed with a household laundry bleach.

STAINS

It is possible to stain a uniform with anything from alcohol to zinc chromate, but if you know what made the stain, an expert cleaner can remove it. In the way of first aid to a uniform before it goes to the cleaner, try soap and water—cool water for wool and warm water for cotton.

Dress uniforms should always be professionally dry-cleaned. Never apply a hot iron directly to dress uniforms; if pressing is required between dry-cleaning, place a damp cloth over the area to be pressed prior to ironing. When caring for all uniforms, always look for care and cleaning instructions on the label, and follow them strictly.

The following specific hints may assist you in the general care of uniform items:

A. OIL OR GREASE

Put clean cloth or absorbent paper under the garment, apply commercial cleaning fluid (or lighter fuel) to the stain, and tamp it, driving the oil or grease through to the cloth or paper. If the stain is heavy, shift the cloth to a clean place and use more cleaning fluid. To avoid a ring around the stain, wet a clean cloth with cleaning fluid and sponge lightly, working outward from the center of the area.

B. PAINT

Fresh paint should be handled as if it were oil or grease. Once it is dry and hard, the uniform should be sent to a professional cleaner. If this is not possible, apply turpentine and let it stand for an hour, then use a spoon or some other blunt object to break up the paint and flush it out as done for oil and grease. (Never rub when spotting fabric; this will leave a chafed area, with subsequent damage to color and weave. Always use a tamping action with a brush.)

C. PARAFFIN OR WAX

Put blotting paper over the spot and apply a hot iron. Continue, using clean blotting paper, until the spot is soaked up

CARE OF OPERATIONAL DRESS UNIFORM SHIRTS

Pre-shrink U.S. Coast Guard Auxiliary Tapes and Name Tapes before sewing them onto your ODU or Working Blue uniforms. Rinse each tape in warm water for 2 minutes and lay them out flat to dry. In other words, if you get a new shirt and new name tape, throw both into the washer/dryer a few times before you actually get the tapes affixed to the shirt. The reason for this is that the shirt and tape may not wear the same way, and you might end up with a nametape that makes the shirt all wrinkly around the edges. The wash process should be done at least 3-4 times before you sew-on the tapes

DEVICES: USE AND MAINTENANCE TRICK FROM MEMBERS

Nametags, ribbons, and certain devices can be prevented from “flopping” by using a backing. This makes your uniform shirts look “high speed”. Exchanges carry backing material, which you wear inside the shirt, cut to the device size. As an alternative, use thin white cardboard or plastic, such as that from a margarine container lid.

SHIRTS: PUTTING CREASES IN YOUR SHIRTS

Military creases may be worn at the member’s option.

For military creases, you do not need the dry cleaner! It’s easy! On the front of the shirt, iron a crease straight up and down centered through the pocket flap buttons from the collar to the tails/bottom. Thus, you will end up with 2 creases down the front of the shirt. Needless to say the “point” of the crease faces outwards.

For the back of the shirt, find the center of the shirt, and crease from about 2 inches below the collar (the yoke) to the bottom. Once that is ironed, carefully pick up the shirt and align the two side seams, which help you find the exact center of the shirt. That is dampened and ironed. The two side seams are established as near to half way between the center crease and the sleeve seam as possible. A quick spray (use spray bottle with tap water), and then fold a line parallel to the center crease. Repeat for the other side of the shirt. The “secret” is to only iron the crease, about 1 inch of material, not the entire area. This helps you avoid over ironing a part of the shirt that might be under the area that you are ironing. Another version is to take a dollar bill and place it spread out lengthwise to each side to find the side creases. These creases will begin about an inch lower than the primary creases and go to the bottom. Thus, you will end up with three back creases.

NOTE: Sewn-in military creases are not authorized. Don’t forget to press the sleeves

SHOES/BOOTS:

Keep your black shoes shiny! Total investment under 5 dollars. Here’s how: The Exchanges should have a few things you need: Polish, a Shoe Brush, and a Rag. Read the directions on whatever black polish you pick. If they differ, follow their directions, not mine. Basically, you apply a thicker layer first, allow it to dry for a few minutes, then brush that layer to create the base. Not much shine will appear after this layer. Then, you apply a thin layer. You don’t need to let it dry. By gently sprinkling water on the new layer, then buffing it with a soft cloth, you will begin to develop a nice shine. You can repeat a few times if necessary. The only caveat in this process is, if you go too crazy with the buffing, you’ll actually over buff your shoes, lose the shine, and have to start over.

UNIFORM: "CONSISTENCY and CONFORMANCE"

It is important to keep a sharp military appearance when in uniform. A poor uniform may reflect poorly on you, but that's the least of the reasons for wearing a properly coordinated uniform. An uncoordinated uniform reflects poorly on the United States Coast Guard, the Reserve, the Auxiliary, and the military in its entirety.

Pencils, pens, watch chains, pins, combs, smoking material, or jewelry (i.e. necklace/chains except for rings) are not to be worn or carried exposed on a uniform. Wristwatches and identification bracelets are permitted. Earrings are prohibited for men in uniform under any circumstances, and are prohibited in civilian clothing aboard any vessel, aircraft, or on any military installation, or when directed to wear civilian clothing while on official duty. No other type of body piercing ornamentation is authorized for men or women. Women can wear only one (not multiple) pair of earrings at a time, ¼ inch maximum size round ball-style in gold, silver or pearl are authorized with all uniforms: when formal or dinner dress uniform is worn, ¼ inch maximum, diamond earrings are authorized.

The bottoms of trousers or slacks should touch the shoe tops from instep rearward. The socks must not be exposed when the wearer is standing.

Men's hair should be neat and clean, not touch the collar, (not square-back) and be away from the ears. Back of women's hair may touch but not fall below the bottom edge of the collar. Women's hair shall not show under the front brim of the cap or extend below the eyebrows when headgear is removed. A single ponytail is authorized for female members, as long as it does not detract from the uniform, extend beyond the top of the collar, exceed the bulk limit, or interfere with the wearing of headgear. No more than one braid shall be worn in the hair. Afro, natural, bouffant, and other similar hairstyles are permitted, but exaggerated styles, including those with excess fullness or extreme height are not authorized. Eccentric styles or colors may not be worn while in uniform or in a duty status. Varying hairstyles are permitted provided these styles meet the criteria of bulk and do not interfere with the proper wearing of military headgear.

Throughout your Auxiliary career, there will be many opportunities to wear your uniform. You must have a clean, pressed uniform and meet personal appearance standards. Women's skirt hemline should end at crease in back of knee but can go no lower than 2 inches below the crease. Handbag style should be hand/over shoulder but can be shortened to wear over arm.

Windbreaker jackets are authorized for use with the tropical, winter dress, undress, and working uniforms. When worn, the jacket shall be zipped at least ⅔ the way up.

Wooly Pulley and Cardigan Sweaters may be worn with Service Dress Blue, Tropical Blue, Undress, and working uniforms. They cannot be worn as OUTER WEAR, on commercial transportation, parade, etc. They may be worn inter-office or inter-building only. Men should wear only V-neck white undershirts with the Tropical Blue, and working blue uniform. With all open neck shirts (except flight suits and the ODU) your undershirt or garment should not be showing. ODUs require a blue crew neck undershirt that does show. It is available for purchase from the UDC. Are all your buttons buttoned (dress jackets are only worn buttoned, never open and hanging loose); is your hair too long and untidy; are your shoes shined; your hands should not be in your pockets; are your trousers pressed to show the crease front and back; if outdoors—is your cap or hat on (it should be)?

SUGGESTIONS:

Suggestions are appreciated and considered. Send to DVC-HX. Because we add some of your suggestions and because the Coast Guard Auxiliary regulations change, the UPG is constantly being updated. You may wish to periodically confirm you have the most current information, by going to the Human Resources Department website at <http://hdept.cgaux.org/> or the Uniform Division web page at <http://hdept.cgaux.org/uniform.htm> and click on the UPG link. All updates are done on an as-required basis.

TO PONDER:

You represent the United States Coast Guard, Coast Guard Reserve, Coast Guard Auxiliary, and the Civilian Coast Guard Family. This is a huge responsibility as a member of the Coast Guard Auxiliary to live up to. The public (our customers) will be watching, and your appearance will affect people's attitudes toward you, your mission, and, more importantly, the United States Coast Guard Mission.
