Subj: UPDATE 7 AND FINAL ON THE AUXDATA II PROJECT

1. AUXDATA II updates and adjustments continue to be made as needs for them are identified by new system users, answering Tier 1 service tickets, and training of new users.
2. User account rollouts continued this week with all Auxiliary members receiving their new AUXDATA II account access on Thursday, May 28th.
3. With the completion of the new user account rollouts for the AUXDATA II system, we are now in a regular product enhancement phase of the project. These production updates will happen approximately every three weeks. The first maintenance window will be on Monday, June 1st, from 7AM to 10AM EDT.
4. When the AUXDATA II system was launched, the two-factor authentication security function was disabled due to an issue that prevented members from logging in at all. That issue is close to being fixed and per Coast Guard cybersecurity policy, two-factor authentication (2FA) will be re-enabled on Monday, June 1st.
5. Internet release is authorized.

*****For many reasons including the value of keeping communication lines clear and open as well as facilitating access to training and educational tools, all Auxiliarists are urged to have their own email address and to keep it updated in AUXDATA.*****

*All ALAUX's are posted on the Chief Director of Auxiliary web site located at: [CHDIRAUX ALAUX](#)

If you have a question regarding this ALAUX, please seek resolution within your Chain of Leadership and Management (COLM) including up to your servicing District Director of Auxiliary (DIRAUX). If your question still cannot be resolved after that, then please email CGAUX@uscg.mil.
