SUBJ: 2022 HOLIDAY SEASONS GREETINGS

1. I extend my warmest holiday seasons greetings to the entire Coast Guard workforce. This is a time to reflect on our accomplishments and look forward to the promise of the coming new year.
2. Whether saving lives in the wake of natural disasters including Hurricanes Ian, Nicole, and Fiona, responding to a surge in irregular maritime migration, watching

over the U.S. marine transportation system, patrolling global waters from the Arctic to the Antarctic, or successfully executing our many other missions, I am honored to send this note of appreciation.

3. You continue to answer the call to duty in a changing world. Through your determination and resilience, we have persevered through a global pandemic, economic uncertainty, and a turbulent geopolitical landscape. Your hard work and resolve are why I am so optimistic about the future.

4. I also appreciate the continued dedication of our Coast Guard families. The demands of Coast Guard operations this year have been felt by our family and friends as much as by our own crews. The holiday season is an opportunity for many to enjoy a bit more time with loved ones. I encourage you to take advantage of that opportunity as operations allow.

5. This holiday season, let us all rest, remember, and reflect on why we serve. For those standing watch, our Nation depends on your vigilance. For those off-duty, enjoy the time with your loved ones and friends. And for all, remember those shipmates we have lost this year - active duty, Reserve, Auxiliary, or civilian. Keep their families in your thoughts and support them as part of our Coast Guard community.

6. Thank you for your service! Happy Holidays, Happy New Year, and Semper Paratus!

7. ADM Linda Fagan, Commandant (CCG), sends.

8. Internet release is authorized.

For many reasons including the value of keeping communication lines clear and open as well as facilitating access to training and educational tools, all Auxiliarists are urged to have their own email address and to keep it updated in AUXDATA.
