Auxiliary Assistant Port State Control Examiner

(Formerly Port State Control Boarding Team Assistant)

Performance Qualification Standard

Revision Date: 05 August 2015

[This page left intentionally blank]

Auxiliary Assistant Port State Control Examiner Performance Qualification Standard

Qualification Code: AUX-PSCE

This workbook is your OJT guide towards qualification as an Auxiliary Assistant Port State Control Examiner. It is your responsibility to document completed unit training items. You should also keep track of all examinations completed by filling out the PSC Examination Log located at the end of this workbook.

The Auxiliary Assistant PSCE qualification is the foundation on which all other Auxiliary Assistant PSCO qualifications are based. All Auxiliary Assistant PSCOs are required to complete the tasks contained in this workbook. The only difference between the Auxiliary Assistant PSCE and the other five Auxiliary PSCO designations you may pursue concurrently is the absence of vessel or cargo specific PQS tasks.

The function of the Auxiliary Assistant PSCE is to accompany “specific cargo / vessel related” designated PSCOs, (i.e. tank vessel, freight vessel, etc.), and assist them by performing portions of an examination that are not specifically related to a vessel or cargo type.

As the Auxiliary Assistant PSCE PQS tasks are vessel neutral, if your command chooses to utilize the PSCE to complete the entire documentation review portion of a PSC exam, you should complete those “documentation” related PQS tasks in the PQS workbooks related to the specific vessel type the Auxiliary Assistant PSCE will be conducting the documentation review on.

A Verifying Officer shall observe your successful performance of each task and document such with date and initials in the appropriate space provided in this booklet. It may be necessary to perform a task several times. The Verifying Officer will not give credit for any task that is not performed satisfactorily.

Although authorized in other Auxiliary Assistant PSCO PQS workbooks, **none of the tasks contained in this workbook shall be deferred.**

Verifying Officers shall be experienced and qualified personnel who have demonstrated the ability to evaluate, instruct, and observe other personnel in the performance task criteria. Verifying Officers must be certified in the competencies for which they are to verify and must be command designated. Verifying Officers must enter their title, name, and initials in the Record of Verifying Officers section before making entries in your workbook.

Auxiliarists do not have law enforcement authority. They cannot independently exercise COTP, OCMI, FMSC or FOCS authority and may become personally liable for actions they take outside of prescribed directives. Do not allow an Auxiliarist to be placed in a position that will compromise the limitations on the member’s authority.

- **Auxiliarists are prohibited from entering confined spaces. Under no circumstances shall any Auxiliarist be allowed to do tasks requiring such entry.**

When you have completed all of the items required for this qualification, your COTP will issue a Letter of Designation. You must forward a copy of your Letter of Designation to your DIRAUX for entry into AUXDATA. Should any item be waived the qualification is considered local and will not be entered into AUXDATA and may not be used toward qualification for the Trident device.

REMARKS:

RECORD OF COMPLETION

Training Prerequisites	Date	Training Coordinator's Signature
A. Completion of any of the following resident training courses:		
1. Port State Control Officer Course (<i>Optional</i>)		
2. Marine Inspector Course (<i>Optional</i>)		
B. Completion of Correspondance Courses:		
1. Introduction to Marine Safety and Environmenatl Protection (IMSEP)		
2. ICS 100		
3. ICS 200		
4. ICS 210 <i>or</i> ICS 300		
5. IS 700		
6. IS 800		
C. Favorable DO PSI if required by COTP/OCMI		
D. Completion of PQS Workbook.		
E. Successful completion of verification exam (for Verifying Officer's signature)		
F. Successful completion of oral qualification board by PSCQB.		
<u>PSCQB Members Present for Board:</u>		
G. Designation Letter submitted for approval.		
REMARKS:

Subj: DESIGNATION AS AUXILIARY ASSISTANT PORT STATE CONTROL
EXAMINER

Ref: Auxiliary Assistant Port State Control Examiner Performance Qualification Standard
Workbook

1. Congratulations! You have completed all requirements necessary to perform the duties of an Auxiliary Assistant Port State Control Examiner. You are authorized to carry out the responsibilities of an Auxiliary Assistant Port State Control Examiner within the scope of your qualifications. This is a significant milestone in your professional development and I commend your accomplishments.
2. This Letter of Designation should be retained as part of your personal Training Record and you will be assigned the Auxiliary Assistant Port State Control Examiner Qualification Code "AUX-PSCE".
