FSO-NS (Navigation Services): Domenic Ciolino

PROGRAMS OF NOTE: Although slow going, FSO-NS Ciolino is still pursuing on making his vessel an OPFAC for AV use only. There are only a few items left to install/acquire so in all reality it will probably be available for the 2016 Operational Season.

PROBLEMS: Flotilla 02-08 OPFAC, the last OPFAC in operation in October, had a steering malfunction on the last planned A/V patrol.

CONCERNS: Due to the malfunction of the OPFAC, we were unable to complete the remaining PATON checks on the list. There are no further patrols scheduled until next spring.

GOOD OF THE AUXILIARY: Hope all have had a good patrol season. Time to put the boats away and get ready for next year.
