

## Local Charts No Longer Updated

John Collins USCG Aux, SBOS ADSO-PE

The National Oceanic and Atmospheric Administration, NOAA, has announced that the updates to the large scale, local charts will not be published after 5 July 2023.

Comparable or larger scale Electronic Navigational Chart (ENC) coverage is available at <https://nauticalcharts.noaa.gov/charts/noaa-enc.html>. You can use the following application, <https://devgis.charttools.noaa.gov/pod>, to create chart images from ENC data, which you can then print.

You can see a list of all canceled NOAA charts at:
