SUBJ: Monthly Report Flotilla 10-01

Flotilla 10-01 has been actively performing PV in our area. To date, we have called on 95 local businesses and marinas. VE efforts are picking up. We have inspected 10 vessels during this period, year to date. Our PE program is scheduled for 18 classes this year; the first class is February 24. We expect more classes to be added as we roll out the paddlesports program. We have several flotilla members engaged in weekly inspection activities at Station Wrightsville Beach.

Respectfully submitted:
