Flotilla 10-05 Report to Division

Membership:

Have leveled out at 95 members with two new members in 2018.

Recognition:

Two Flotilla members were recognized for their substantial volunteer hours with the Auxiliary.

Participation:

A recently conducted study shows that Flotilla 10-05 has an over 80% participation rate – i.e. members are involved in one or more missions. Our concern has shifted to determining the best approach to those members who consistently only maintain minimum qualification status. It should be noted that some of these non-participants are living quite remotely from our region which may explain their reticence to participate.

Our approach last year to those members who pay annual dues but have no other involvement with the Auxiliary resulted in some dis-enrollments. Others remain on the roles with no further commitment.

Flotilla Officers:

2018 begins with a full-slate of Flotilla Staff Officers, only one of which serves in more than one position.

New Member Requirements:

New requirement for all new Auxiliarists – completion of BQII course in addition to the mandated Training courses. In football there is a rule against “piling on.” Do we know what the completion time requirement is – same as AMT?
