

UNITED STATES COAST GUARD AUXILIARY

DEPARTMENT OF HOMELAND SECURITY

The civilian component of the U. S. Coast Guard
(Authorized by Congress in 1939)

14 August 2019

FROM: Howard Sprow, SO-CS
TO: DCDR, Division 10

SUBJECT: SO-CS Activity Report – August 2019 Meeting

A couple of our flotillas identified a problem with the links to the FEMA courses ICS-100, 200, 700, and 800 on the national Auxiliary site and on the FEMA site. I escalated the problem to National IT but they have not yet identified the cause and the problem links seem to be accessible without issues from most of their computers. As an alternative path to these important courses I have updated the Division 10 Quick Links page to include working links to the FEMA courses. Members should always use the Quick Links page for these courses. Members can scroll down to the Training section on the Quick Links page to find the links to the courses.

FC and SO reports were posted on the Division website.

Flotillas have continued to add content to their websites but no major changes were reported.
