

UNITED STATES COAST GUARD AUXILIARY

DEPARTMENT OF HOMELAND SECURITY

The civilian component of the U. S. Coast Guard
(Authorized by Congress in 1939)

12 December 2016

FM: Howard Sprow, SO-CS
TO: DVCDR, Division 10

SUBJECT: SO-CS Activity Report – 2016 Year-End

The Division 10 WOW website has been maintained throughout the year to include all FC and SO reports that were submitted for each Division meeting. Other content has been updated and edited to include various useful features like the Quick Links page that is accessible to members without entering a password. Flotillas may link to this page from their websites to save having to create and maintain their own similar pages. On a monthly basis, the various links on the Division site were checked to ensure that they still are still valid and work properly. Website content was check periodically to ensure that it remains correct and useful.

In 2016, National IT performed a complete review of every Auxiliary websites to ensure compliance with policy. This is done very few years. Division and flotillas each received a detailed report of issues to be corrected. This include broken links, outdated content, policy violations and missing items that the Auxiliary asks all units to include on their sites.

Flotillas 10-01, 10-05 and 10-06 were able to make all of the required edits and updates and have been granted approved status by National IT. Flotillas 10-07 and 10-08 have corrected all inaccurate data and are working on updating a few remaining content elements.

National IT in 2016 required that all Auxiliary sites be run on the WOW system. Running both a WOW system and the legacy AIRS system is no longer permitted. This only affected 10-06 where a combination of both sites was used to display content to users. This concept also provided the flotilla with more document storage space. 10-06 has moved all documents from the old site and is now running only on WOW.
