SO-MS Report

So far in 2017 I've been working with ADSO-MA Andy Cardwell to get a better connection with Sector NC to assist in their mission. I have also had a few conversations with Captain Hill OIC Sector NC. We are currently discussing an idea to support them with a enviromental protection program. We hope that if they see an effort on the part of local auxiliary they will open the doors to working together more often.

I also have a meeting scheduled in March with the Sector inspections officer to see if we can be of any assistance. More information will folow as I find out.
