TO: VCDR DIVISION 10
FROM: SO-NS 10
DATE: 15OCT2016

    1. The 2016 PATON list for Division 10 was received & distributed to all Flotillas. Class 1 and 11 PATONs need to be inspected. On the 7054 please note that the Aid Number for a PATON may be its Legacy Number (see PATON list for that number).

    2. The forms to use are on the Division Website: "Members Only, Prevention". They are the 7054 & 7055. Only Avs can verify PATONs, but any member can submit a form for a discrepant ATON or PATON. Send the completed forms to the FSO-NS, who will then send them to the SO-NS to be processed. Be sure a 7030 is completed and sent to the FSO-IS with a copy to the SO-NS. Also, the ANT wants pictures whenever possible.

    3. FLOTILLA ACTIVITY:

       The Flotillas were available to assist "after the storm", but were not needed. The ANT was notified of their availability.

       10-01 – 5 reports received
       10-05 – 2 reports received
       10-06 - 4 reports received

       The subject of REYR has been discussed & may go into effect at the end of this year. It would be advisable for all Avs to send in a report to stay current.

    4. Open Board Meeting – NS Software Discussion. See attached from Joe Safranek.

Respectfully submitted,

Lois Dowty
