SUBJ: October 2019 SO-NS Report

1. An update of the PATONS on the list submitted earlier in the year by the ANT coordinator, BM1 Fuentes is as follows: On the original list plus several additional ones found in the light list there were 130 PATONS, 103 of which were overdue for verification, leaving only 27 that were currently checked. As of this date we have 111 still on the list (some were removed), 71 are current, leaving only 36 left to check. More patrols are being organized to reduce this number and several will be taken over by the Coast Guard to check on a regular basis.
2. The FSO-NS,s from Flotillas 10-01, 10-05 and 10-06 are reminded, if they haven't done so already, to conduct the required annual AV Workshop for all their qualified AV's. Also, any of them that have not submitted a 7054 with a follow up 7030, need to do so before the end of the year to prevent going into REYR
3. A final draft of the Auxiliary's 2019 PATON list for Division 10 will be distributed to the FSO-NS's before the end of the year.

Respectfully submitted,

A handwritten signature in cursive script that reads "William L. Thompson".

William Thompson,
SO-NS, Division 10
