

UNITED STATES COAST GUARD AUXILIARY

DEPARTMENT OF HOMELAND SECURITY

The civilian component of the U. S. Coast Guard
(Authorized by Congress in 1939)

May 19, 2018

FM: SO-OP

TO: Clarence Willette, Howard Sprow

SUBJ: Quarterly Report from SO-OP, Division 10

USCG Sector Wilmington requested facilities to participate during the delivery of cranes aboard the Zhen Hua to the Port of Wilmington. Six vessels were volunteered.

The regular patrol season resumed in April. to provide for regular MOM and training patrols.

Flotilla 10-01 continues it's participation in twice a week joint training with Station Wrightsville Beach. and provides safety patrol for water borne events in their AOR.

The Division SO-OP has access to the NOAA Beacon Registration database to manage the registration of new PLB's as well as changes in registration of PLB's when they are reassigned. Renewal of registrations when they expire every two years is also handled by the SO-OP

This SO-OP has some PPE equipment that can be issued on an as needed basis so FC and FSO-OP can make the request for his flotilla members. Requests for gear available in the inventory should be made to the SO-OP (George Asimos) and/or the DSO-OP (Andrew Cardwell).

The SO-OP is the only member in Division 10 who is authorized to request PPE equipment from DIRAUX (OTO)

Respectfully,

George Asimos
SO-OP Division 10, 054SR
