I am pleased to report that Division 10's 2018 public education program is doing well. (SEE chart below). We already exceed 2017's benchmark and have one more ABS class posted on the national website for November. As usual most classes were ABS, however 10-05 also taught 1 BSS class. All 12 students graduated. The chart below is based on figures extracted from the AUXINFO data cubes.

Bravo Zulu to our FSO-PEs, instructors, and our RBS colleagues. All of you make it happen!

Respectfully submitted,
