

## Div. 10 PE Report

Apr. 2016

Activity since my Feb. report is as follows -

- 10-01 \* 2 ABS classes – 12 students
- 1 BS&S class cancelled due to low enrollment
  - Working on 4 1 hr classes with PV, PA, and VE for Safe Boating week.
- 10-05 \* BS&S class started Mar. 19 – 18 students. Completed April 14
- Have scheduled 9 days of Water n Kids classes at 3 elementary schools to be held in late April – Early May.
- 10-06 \* ABS class – Mar. 5 8 students
- Apr. 16 class cancelled due to low enrollment. The four students enrolled in that class will attend the Apr. 20 class
  - Students learning about the courses seems to be evenly divided between Local Publications, Online, and referrals.
  - Consideration is being given to offering a class in Spanish and also offering The Weekend Navigator

As of this date we have offered the following courses in Div. 10 this year –

10-01 – 2 ABS classes – 12 students

10-05 – 2 ABS classes – 20 students

- 1 BS&S – 18 students

10-06 – 1 ABS – 6 students

- 1 BS&S – 6 students.

All Flotillas report that they have adequate numbers of instructors to complete their PE mission.

AUXplusPE continues to have problems. Difficult user interface and lack of training are cited as reasons for low usage.

Respectfully submitted,

Fred Robertie
