Subject: June Public Education Report

Flotilla 10-01 has successfully graduated 126 students as of this date, with 7 more classes scheduled for the remainder of this year. I am projecting approximately 160 students by the end of our 2017 program.

I reached out to the other flotillas in the division requesting number of classes and students per class for my progress report, but I have not heard back from anyone yet. If I receive any numbers, I will forward them to you before your meeting.

Unfortunately, I will be unable to attend our meeting this Saturday. I have an ABS class at Creekside Marina.

Respectfully Submitted,

Jim Sinclair
