

UNITED STATES COAST GUARD AUXILIARY

DEPARTMENT OF HOMELAND SECURITY
The civilian component of the U.S. Coast Guard
(Authorized by Congress in 1939)

October 13, 2018

To: **Butch Willette DCDR**
Howard Sprow VCDR
Barry Rice SO-MT

The PV program within Division 10 is performing at a slower pace in 2018 than in previous years. Division 10 is steadily increasing interactions with the public as more members are performing the minimal number of PVs to remain out of REYRs.

Division 10. Specifically, the PVs performed this year to figure out why there has been a reduction in numbers. I found out that there have not been any PVs that were performed for Flotilla 10-01 entered into the IS system since Mid-July. Our members have been performing PVs and keeping in good stead with our partners. I brought this to the attention of the leadership in Flotilla 10-01. Hopefully they can recover from this problem. I feel for all the members who are out there working diligently to promote safe boating but not having their work documented they deserve better.

Respectfully submitted.
