

## VSC's as of 02 June 2019

1. Total VSC's Completed are 700
2. ALL Flotillas are active from 70 up to 270.
3. Seems that Kyaks are out pacing Power Boats Which are reflected in the numbers.
4. We should try to plan more PB VSC's at our local Marina's and Boat Launch sites.
5. We should advise the boaters of the New PFD designations as well as continue to advise them about the KIDDE Recall for their Fire Extinguishers.
6. We are heading into the Summer Activities for Boaters so we should make ourselves Available to provide our Quality Educational Exams as well as Discussion about Marine Safety Aspects.
7. Many of our Flotillas have been Recruiting New Members and should be encouraging them to Get Certified as a VE And PV Which can get them much closer and sooner to obtaining their RBS Devise!!
