

St. Petersburg was host to the Tall Ships March 31st -April 2nd. They requested volunteers for handling lines and being a liaison which required some training. Parks Honeywell volunteered for one of the liaison positions.

Division 7 requested volunteers to act as watch standers for the C. G. auxiliary booth during those days. They needed 3 members for each of the the shifts for each of he three days. Response was successful and the positions were filled rather quickly.

Division 11 covered about 2/3 of those shifts covered with 7 members from our flotilla volunteering. All photos were submitted by Gordon Thomas and taken by various passerbys.
