Chuck Budnick reported that starting this coming Thursday through Saturday, seven members (7) will be doing their QE (Qualification Examination) for coxswain and/or boat crew certification. He reminded those taking the examination that if they are not in uniform they will not be able to do the QE. He also reminded them that it is critical that they use the proper communication between coxswain and crew members during the QE and to verbalize it loud enough to be heard.

Chuck Budnick said he talked with a Horry County Parks and Recreation representative last month about his concern of the poorly kept condition of the Socastee Boat Landing. He made a suggestion that our Flotilla adopt Socastee Landing and also Peachtree Landing which is just down river. Dolorene Arruda said that she talked with a representative of the Chicora Indian Tribe who told her they had already adopted Socastee Landing. Jack Margolis asked what it takes to maintain a landing and Chuck said that he couldn't answer his question but he would like to see us form a committee to determine what the requirements are and if there is a member interested in leading this project to come and see him and he would give them the business card of the Director of the Horry County Parks and Recreation. Tony Presson asked if funds would be available and Chuck said that would be another issue a committee would have to research and determine. Chuck did say that if we did decide to adopt that it would be at least a one year commitment and suggested that the committee research this project and bring it back to the members for a vote. He then asked for a show of hands to form this committee and volunteers to be on the committee. There were no volunteers and the discussion was tabled.

Chuck Budnick reminded members that annual membership dues are due by September 30, 2013 and that Bud Shepard will be sending out notices to all members. He said that they were \$40 last year and recommended that they remain at \$40 for calendar year 2014. Eric Hurlin said be thought that the dues amount needed a member vote and Chuck agreed. He put forth a motion that dues for Calendar Year 2014 remain at \$40. Jim Nelson made 1st motion to approve and Bud Shepard seconded the motion. Chuck asked for a voice vote (yah/nah) and motion was approved. Bud asked all members to pay on time because if they don't the Flotilla is required to send out certified letters that are costly and a long process.

Chuck Budnick said that he has formed a committee to oversee the election process for Calendar Year 2014 Flotilla Commander and Vice Flotilla Commander. He said the appointed Eric Hurlin as committed chair and said that two more members were needed to be on the committee. He asked Jack Margolis and Josh Gray if they would serve on the committee and both agreed that they would. Larry Koslap asked the time frame for the election and Chuck said that the vote for candidates happens in October.

Chuck Budnick said he was on patrol on the ICW (Intracoastal Waterway) by the Grande Dunes Marina and that they had to move close to shore to avoid an oncoming boat and hit a rock. He said the crew checked the boat and did not see any immediate damage that would cause the facility to be unsafe. The incident was reported to U.S. Coast Guard Georgetown. He said because of the narrowness of the ICW it is important members be aware of unseen and/or unmarked obstacles if they have to move away from the center of the ICW. He also mentioned that on the way back that there was an incident at the Socastee Swing Bridge where a pontoon boat's bimini top got wedged under the bridge.

Chuck Budnick discussed a notice going around higher qualifications that will be required of auxiliarists to be a TCT Training Facilitator (for 1 hour courses).

Chuck Budnick said he heard from other Flotillas that members don't think the auxiliary is as fun as it used to be and asked members what he can do for our Flotilla to make it more fun. He said he feels we have a very cohesive group of members and he doesn't want to see anything happen to it and asked members to let him know how things he can do or things that we shouldn't be doing so members feel valued.

Chuck Budnick said that a new public landing in Georgetown is closed due to collapse of the ramp.
