US Department of Defense Warning Statement

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only. By using this IS (which includes any device attached to this IS), you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG-authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests--not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See User Agreement for details.

Enrolled Expires: July 22, 2020 @ 7:24 PM

The content in this course is designed to comply with the intent of the applicable regulatory requirements. The training requirements established under the Bloodborne Pathogen standard require an employer to allow for an opportunity for interactive questions and answers with the person conducting the training session. Employers may use a variety of methods to meet the intent of the standard. As an example, OSHA has previously stated that an employer can meet OSHA's requirement for trainees to have direct access to a qualified trainer by providing a telephone hotline.

The course was developed by Skillsoft and reviewed with subject matter support provided by certified subject matter experts and industry professionals. Please note, the course materials and content were current with the laws and regulations at the time of the last expert review, however, they may not reflect the most current legal developments. The screenshot shows the AUX LMS interface for the 'Blood-Borne Pathogen Awareness 2.0' course. The header features the United States Coast Guard logo and 'AUX LMS'. The browser address bar shows the URL 'https://auxlearning.uscg.mil/launch/lesson.asp'. The page title is 'Course Test'. The main content area is divided into two sections: 'Course Test' and 'Course Test Results'. The 'Course Test' section contains two paragraphs of text and two buttons: 'Completion Status' (highlighted with a red box) and 'Retake Test'. The 'Course Test Results' section has two tabs: 'Summary' (selected) and 'Details'. Under the 'Summary' tab, there is a 'Course Test Score' section with a progress bar and the text 'Your course score is the average of all of your highest lesson scores.' and 'Highest Score 100%'.

HOW TO TAKE A SCREEN SHOT

The process for taking a screen shot will depend on operating system being used and the hardware (especially keyboard). Basic instructions are shown below:

WINDOWS

- Snipping Tool
 - Open Snipping Tool App
 - Click on new
 - Use cursor to outline desired area of screen to copy
 - Screen Shot is taken when you release the cursor
 - Open Word or other program and Paste the Screen Shot
- Print Screen
 - Press the Print Screen (PRTSCN) key
 - Screen Shot will be copied to clipboard
 - Open Word or other program
 - Click Paste

MAC

- Simultaneously depress [Shift / Command / 4](#)
- Use cursor to outline the desired area for copying
- Releasing the cursor will result in a screenshot being copied to your desktop
