CG Blue ODU Top

The ODU top (Coat) is a Coast Guard blue variation of the Battle Dress Uniform (BDU). It has two flap closure pockets on each side of the chest and a flap covering the buttons. It is worn tucked into the trousers. Sleeves may be worn long or rolled neatly and evenly to the width of the cuff to the mid bicep portion of the upper arm. This top (Coat) is sized first by [Chest](#) size and then by [Sleeve](#) length. See the illustrations below to determine how to properly calculate these measurements. Although the Odd-sized range may be used by either men or women, it is particularly suited for women's fit. Nevertheless, members should order the size, using the directions below, that will give them the best fit regardless of whether is is an [Even](#) size or an [Odd](#) size.

Chest Measurement

Left and Right Sleeve Measurements

	<p>Have the individual stand with the left arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>
	<p>Have the individual stand with the right arm extended away from the body and bent at the elbow to form a right angle.</p> <p>Place the tape measure at the neck base mark.</p> <p>Extend the tape past the shoulder, over the elbow, and to the rubber band at the wrist.</p> <p>Record the measurement to the nearest quarter (0.25) inch.</p>

ODU Trousers

ODU trousers are a CG blue variation of the Battle Dress Uniform (BDU). They have two hip pockets, two back pockets with flaps, and two expandable cargo pockets with flaps. Trouser waist is adjustable. They are bloused above the boot tops when worn with high-topped (8 - 10 inch high) black safety-toe boots. Elasticized or Velcro™ type blousing bands may be used. Blousing bands should not be visible. May be worn straight leg fashion when low-topped shoes or boat shoes are required. These trousers are sized first by [Waist](#) size and then [Out-seam](#) measure. See the illustrations below to determine how to properly calculate these measurements.
