Communication Services/CS - Lynda Stolt (Promotions Team)

Update (as discussed in New Business) our website

I did research commercial website, and it is allowed, however, at this time I will try to make the best of our WOW Aux site to avoid extra costs and scrutiny. I will continue to push forward to a future private site.

I worked with Antanas to develop an on-line reporting page to submit our monthly staff officer reports to our VFC and your Division SO.

I will implement this system in April and continue to develop the reports as needed for ease of use and specific for office.

I have tried to keep up on communications with the flotilla with needs and important announcements.

I plan to be forward looking to see the needs of our flotilla and to keep members informed through active communications

Communications/CM - Steve Cerutti - See page 11 for CM report

Diversity Officer/DV - Kateri Janavicius

Optimize use of everyone's talents by helping to find positions, activities, etc. that interest them

I will need to work with our FSO-HR (Douglas) to assist with finding available opportunities for new and existing members to flex their creative muscles.

Create a training program with MT officer for diversity management. The DSO-DV is interested in collaborating with other flotillas to exchange information on best practices, so I plan to join this group.

This speaks for itself- I will be working with our FSO-MT as well as other DV Officers in our district to swap ideas to ensure our members are valued.

Finance/FN - Ralph Galbraith

Maintain balanced check book

Pay bills on time

Send out notices of money dues in a timely manner

FSO-CM March 08 Flotilla Meeting Notes:

1. Planning for acquisition and manning of two trailer mounted ground emergency communications assets are in advanced stages being conducted with Sector Soo staff. Planned staging of these assets is : 1 UGSG owned asset at Sector Soo in Saint Ignace, and 1 USCG AUX owned asset at CG Air Station Traverse City. There is a need for Aux Telecommunications Operators to augment active CG personnel manning these assets when deployed. Those interested in becoming qualified TCOs should complete the Auxiliary Telecommunications Standard PQS. Contact me for further details if interested.
2. Station Charlevoix still needs Aux watchstander qualified personnel to augment the station crew. If interested you will need to complete the USCG Communications Watchstander Qualification PQS and the Station Charlevoix AOR exam. Interested personnel should coordinate your training directly with Chief Collison. Contact me for further details if interested.

DSO-EM Notes for Flotilla Meeting:

Sectors Soo and Detroit have identified shortages of active duty personnel to man Incident Command Centers in the event of emergency long term operations. Qualifications for ICS command center positions can be obtained through on-line FEMA ICS classes. Aux personnel interested in becoming 9CR Incident Command Center cadre are encouraged to contact me for details. Once qualified you may be deployed (voluntarily) not only within 9CR but potentially nationwide in case of emergency (i.e. – the Atlantic or Gulf coasts for Hurricanes) More to follow from 9CR and Division.
