Level 3 Leadership Competency Certification

Leadership Competency Certification is the process by which a person proves that he or she has the knowledge, experience and skills to perform the tasks required of leadership. The proof comes in the form of a certificate which is earned by meeting the requirements at each competency level.

It is important to note that certifications are a demonstration of ability or knowledge. Leadership Competency Certification shows members and the Chain of Leadership and Management (CLOM)that you are committed to professional, sound leadership and are well-trained. It gives them confidence in your abilities and knowledge. Certification makes you more valuable to the Auxiliary.. Certification also opens up leadership advancement opportunities. You will have a competitive advantage over candidates without certificates.

Requirements for Level 3 Leadership Competency Certification:

_____ Level 1 – Leadership Competency Certification
_____ Level 2 – Leadership Competency Certification
_____ Leadership Competency – Level 3 Test
_____ Auxiliary Mid-Level Officer Course (AMLOC)
_____ FEMA Leadership & Influence (IS-240.series)

Effective 1 February 2022 provide your _DSO-MT_ a copy of the FEMA IS-240 completion certificate so it can be entered into AUXDATA II. Verify with your _DSO-MT_ that all other training has been recorded in AUXDATA II as you complete the requirements. A report is sent to your DIRAUX for issuance of the Leadership Competency Certificate.
