

AL AUX 10-13 - TEAM COORDINATION TRAINING (TCT)

08AUG2013

1. Effective September 1, 2013, Auxiliarists who are selected and meet criteria in accordance with the following provisions are authorized to deliver Initial and Five Year currency maintenance Team Coordination Training (TCT) to other Auxiliarists. Auxiliary TCT Facilitators for active duty crews shall continue to be trained and qualified through the legacy process, and they must undergo this selection process in order to deliver TCT to other Auxiliarists. Additionally, new Initial and Five Year Currency Maintenance TCT Workshops are intended to be delivered in half-day sessions, respectively. They have been developed to encourage greater participation in the training process and to better utilize experienced Auxiliarists in their presentation.

a. TCT Facilitator Selection Process:

(1) An Auxiliarist must be nominated by his/her Flotilla Commander (FC) or Division Commander (DCDR) and then be approved through the Auxiliary chain of leadership to the cognizant District Captain (DCAPT) or District Directorate Chief (DDC), with an info copy to the District Commodore (DCO).

(2) A nominee approved by the DCAPT or DDC shall be submitted to the Director of Auxiliary (DIRAUX) for selection and designation as a TCT Facilitator.

(3) A nominee must possess either of the following qualifications:

(a) Certified Instructor and certified Coxswain, or certified Instructor and non-current Coxswain who has logged at least 250 Coxswain hours in AUXDATA; or

(b) Certified Instructor and either certified First Pilot or Aircraft Commander, or certified Instructor and non-current First Pilot or Aircraft Commander who has logged at least 150 Pilot hours in AUXDATA.

b. Nominees shall be selected based on proven excellence in these fields and their ability to communicate effectively. Initial designation as a TCT Facilitator will be for three years, after which he/she must be re-designated by the Director. TCT Facilitators shall be reevaluated based on their performance or participation during this period.

c. These TCT Facilitators shall be labeled in AUXDATA as "TCTAUX" (TCT Facilitators who receive their designation via completion of Coast Guard training shall maintain the label of "TCTFAC" in AUXDATA). TCT Facilitators who are not re-designated at the conclusion of their three year period will be placed in REYR status in AUXDATA. Failure to be re-designated by the DIRAUX during the next five consecutive years in REYR status shall result in complete loss of this designation. The only way for a TCT Facilitator to again perform such activity will be to undergo the entire selection process.

d. The DIRAUX shall have sole authority to designate or remove these TCT Facilitators.

e. The following resource materials will be available on the Auxiliary Response Directorate website (<http://wow.uscgaux.info/content.php?unit=r-dept>):

(1) TCT Slide Presentation

(2) TCT Facilitator Guide

(3) TCT Participant Guide

2. These provisions shall be memorialized in future changes to the Coast Guard Auxiliary Manual and Coast Guard Auxiliary Operations Policy Manual. Questions are encouraged to be forwarded up the appropriate Auxiliary chain of leadership.
