MISSION CODE SUMMARY MATRIX

Below is a simple matrix illustrating how the data elements in an activity log work together in AUXDATA. It is NOT going to cover all circumstances an IS Officer or Member may report. For Official Codes Guidance see the ANSC 7030, ANSC 7029, ANSC 7038, ANSC 7039, ANSC 7046 and ANSC 7066 forms

NOTES:

(1) The Typical or Possible Operations codes listed below are described by code "type" however, an Operation Code could be used with ANY Mission Code where it is needed. For example if assigned by the CG to do media relations for a Natural Disaster for which there is an operations code, the PA code used would be paired with the Operations code even though the list here says "none". AUXDATA II "How to" Guides also provide valuable guidance.

(2) Operation Codes to be used with 99E include AUXFE, AUXOMB, AUXBUILD for work done in those programs. Also, AUXSCOUT1, AUXSCOUT2 and AUXAUP should be used with any "99" code if the reporting member is a Scout, Scout Leader or AUP program participant or leader. See the appropriate How to Guide for how the Code should be used.

(3) These Activities require a letter of appointment or a staff officer position.

(4) Musicians must be qualified/hold a Musician competency or be in the Auxiliary Pipe Band, an appointed bugler or ceremonial drummer.
